

Jonathan Pereira

Frontend Developer

I am a self-improvement person that loves to learn new and exciting technologies. I enjoy working as part of a team to have those brainstorm meetings where great ideas come out. I am eager to embrace new challenges and expand my skills while contributing to dynamic projects.

- HTML
- CSS and SCSS
- TailwindCss
- Javascript
- ReactJs
- Outsystems

Language

English B2

French B1

Experience

2022 - Present

Mediaweb Creations, LDA

Frontend Developer

As a frontend Developer at Mediaweb, I am responsible for creating functional and engaging user interfaces not only for internal projects but also for clients, as Fidelidade. My job at Fidelidade is to help the teams responsible for the many insurance applications by creating custom components and styleguides, based on designs made by our UX/UI team. I also make the email templates for the different services that Fidelidade offers.

2021 - 2022

Mediaweb Creations, LDA

Internship

I was introduced to Outsystems low code development, learning all about frontend in this platform, and I started to work for clients.

2017 - 2018

Vinno Portugal, LDA & VOX Produções

Internship

My main job at VINNO was to make the designs for the olive oil and wine bottles. I also developed the website on WordPress.

In Vox Produções I made some multimedia productions and also helped on an interview with the audio and camera settings.

Education

2018 - present

School of Technology and Management - IPL

Bachelor in Games and Multimedia

I learned all about game and multimedia technologies and web development. I was introduced to object-oriented programming working with C++, C#, Java and JavaScript.

2016 - 2018

School of Technology and Management - IPL

Web development and multimedia (TeSP)

Here I learned the world of web development, starting with HTML and CSS basics to advanced databases and JavaScript concepts.
